

Bosch IDS Ceiling & Wall Mounted Air Handlers

Smart technology for lower install cost!

- ▶ Achieve maximum comfort and efficiency with one of three Bosch air handlers for seamless pairing with the IDS Light condensing section.
- ▶ Options include the standard Bosch BVA air handler, compact wall mounted BWA, and BCA ceiling mounted air handler.
- ▶ Tailor your system to your specific application.
- ▶ Enjoy peace of mind with reduced noise levels. Integrated sound dampening features ensure quiet equipment operation.

Designed for easy installation & start-up | Support & spare parts readily available | Easy to maintain & service

Bosch Inverter Drive Technology Provides Maximum Comfort, Minimum Energy!

The Bosch Inverter Ducted Split Family offers top-tier efficiency through variable compressor capacity, lowering costs. Enhanced humidity control and high efficiency provide maximum comfort with minimal energy use. Intelligent features, paired with integrated sound dampening, ensure quiet operation for your peace of mind.

What is Inverter Technology?

15 SEER System IDS Light

- ▶ The first 15-SEER Inverter condenser on the market.
- ▶ With IDS Light, you get the comfort of our inverter system at a price point you'll love!
- ▶ This system combines the standard efficiency BOVA15 outdoor unit with our BVA15 fixed-speed air handler.

16 SEER2 System IDS Light Compact Wall

- ▶ A versatile wall-mounted air handler paired with an inverter condenser to create a space saving comfort solution.
- ▶ This system combines the BOVA15 outdoor unit with our BWA16 constant torque air handler.

16 SEER2 System IDS Light Compact Ceiling

- ▶ A compact ceiling-mounted air handler combined with an inverter condenser to create a powerful combination.
- ▶ This system combines the BOVA15 outdoor unit with our BCA16 constant torque air handler.

Bosch Has Developed and Built The Perfect Heat Pump System For Your Project

Perfect For Multi-family, Mixed-use Spaces, and Limited Space Applications

Bosch's versatile air handlers are ideal for multi-family developments, mixed-use spaces, and limited space applications, providing personalized comfort and quiet operation in multi-family settings and efficient space utilization in mixed-use spaces. Paired seamlessly with IDS Light condensing sections, they offer reliable performance and energy efficiency in space-constrained environments.

Brochure

Energy Efficiency

Bosch air handlers are designed to maximize energy efficiency, ensuring that you get the most out of your cooling and heating system while saving on your utility bills.

Seamless Integration

Bosch air handlers seamlessly integrate with the IDS Light condensing section, creating a cohesive and high-performance HVAC system that's perfect for your specific needs.

Quiet Operation

Enjoy peace and tranquility with integrated sound dampening features that make our air handlers some of the quietest on the market.

High-Performance Outdoor Units

The BOVA15 outdoor unit, when paired with our air handlers, delivers powerful and reliable performance to keep your indoor spaces comfortable in all seasons.

Durable Construction

Bosch air handlers are built to last with high-quality materials and craftsmanship, ensuring a long-lasting investment for your comfort needs.

10 Year Residential Limited Warranty⁽¹⁾

With our residential limited warranty, you get up to 10 years of replacement parts protection for all heat pump system components installed during manufacture. Parts purchased separately from Bosch and field-installed have a 1-year warranty.

Expert Support

Our dedicated customer support team is here to assist with any questions or concerns you may have, ensuring a worry-free experience.

We invent sustainable heating, cooling and well-being solutions – for a smarter and better life.
